Respected Dean, Sir or Madam

We are pleased to inform you about the 2008 Isaac Roet Prize essay contest.

The Isaac Roet Prize is an international essay contest about the promotion of world peace through economic interaction. Students from all economic faculties at universities around the globe are invited to participate and to write an essay on the theme of the 2008 edition of the essay competition:

Resource access and world peace; policies to promote global stability in view of growing scarcity of non renewable natural resources.

A prize of Euro 5,000 will be offered for the best essay on this subject. The competition is open for participation until December 31, 2008. Details on how to join the competition can be found on www.roetprize.org or can be obtained at the organising committee.

We invite students from your faculty/university to join the competition. The organisation of the 2008 Isaac Roet Prize has been delegated to the Dutch/Flemish affiliate of Economists for Peace and Security (EPS). EPS is an international organisation for intellectual exchange among economists concerned with issues related to peace, conflict resolution and international security.

We kindly ask you to announce this competition to the students at your university. On the www.roetprize.org website you can find a poster that can be downloaded and printed. Also a banner for the universities website is available.

If you have any further questions or suggestions, please do not hesitate to contact the Isaac Roet Prize Committee.

Thank you for your cooperation.

Yours faithfully,

Drs. J. van der Beek
