

CIB - Centre Interfacultaire Bernoulli
Spaces of Negative Curvature Fall 2005

Mini - Symposium about Teichmüller Theory

Wednesday, 14 december 2005, Room AAC 006, EPFL-SG Building

11:00 – 12:00 : Jean-Pierre OTAL (Lille / ENS Lyon)

*About the embedding of the Teichmüller space in the
space of geodesic distributions*

14:00 – 15:00 : William HARVEY (King's College, London)

Symmetry and rigidity in low dimensional moduli spaces

15:05 – 16:05 : Walter FREYN (Augsburg)

An elementary proof of Teichmüller's Theorem

16:05 – 16:30 : Coffee and tea break

16:30 – 17:30 : Greg McSHANE (Toulouse)

Introduction to higher Teichmüller space

For abstracts of the talks: <http://www.unifr.ch/math/events/bernoulli/main/html>

There will be a joint dinner. If you are interested in participating,
please send an email to christiane.depaola@epfl.ch

We are looking forward to welcome you on the occasion of this event.

Christophe Bavard , Peter Buser , Ruth Kellerhals (ruth.kellerhals@unifr.ch)
