

# From a personal computer or smartphone (Mac / Windows / Chrome OS / iOS / Android)

## Prerequisites

- Connected to the UNIFR network (Wi-Fi via the "eduroam" network or through a VPN connection)
- Internet browser

1. Open a browser and enter:

<https://vprint.unifr.ch:9164/setup>

2. Follow the instructions described on the webpage. During the installation, you will be asked to:

- Check the printer UNIFR-Mobility-printer [VPRINT].
- Enter your username and password for your University of Fribourg account.

3. The printer installation is complete. You can now print (only in A4 or A3\* format) using the UNIFR-Mobility-printer from any program.

**IMPORTANT:** Once the print job is sent, if you are a staff member at the University and therefore linked to financial units, you must also complete the following steps:

- Open a browser and go to <https://vprint.unifr.ch/client>
- Log in with your UNIFR account
- A notification will appear. Choose the account to which the print job should be charged and click the "Print" button.
